[Cd. 1873.] Price 3½d.

To

His Excellency WILLIAM HUMBLE, EARL OF DUDLEY, Lord  
Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR EXCELLENCY,

I am directed by the Vice-President to submit to Your  
Excellency the Tables showing the Extent in Statute Acres and  
the Produce of the Crops for the Year 1903.

I have the honour to remain,

Your Excellency's faithful Servant,

T. P. GILL,

*Secretary.*

DEPARTMENT OF AGRICULTURE

AND TECHNICAL INSTRUCTION FOR IRELAND,

UPPER MERRION STREET,

DUBLIN, 18th December, 1903.

---

DUBLIN CASTLE,

21st December, 1903.

SIR,

I have to acknowledge the receipt of your letter of the  
18th instant (30334/03) forwarding, for submission to His  
Excellency, the Lord Lieutenant, Tables showing the extent  
in statute acres, and the produce of the crops for the year 1903

I am,

Sir,

Your obedient Servant,

J. B. DOUGHERTY.

THE SECRETARY,

DEPARTMENT OF AGRICULTURE AND

TECHNICAL INSTRUCTION FOR IRELAND,

UPPER MERRION-STREET,

# TABLES

SHOWING THE EXTENT IN STATUTE ACRES

AND THE

PRODUCE OF THE CROPS

FOR THE YEAR 1903.

## CONTENTS.

	PAGE
INTRODUCTORY REMARKS, . . . . .	5
DIAGRAM showing the Average Produce of Potatoes in Tons per Statute Acre for the whole of Ireland in each of the Twenty Years 1884-1903, and also the Mean Produce per Statute Acre for the same period, . . . . .	14
TABLES :

VII.—Bee-keeping Statistics, showing by Counties and Provinces the Number of Stocks in the middle of May, 1902; the Number of Swarms during 1902; the Number of Stocks at the beginning of Winter, 1902, and the Number brought through Winter, 1902-1903; with the Quantity of Honey produced and of Wax manufactured in 1902, . . . . .	42

# AGRICULTURAL STATISTICS, IRELAND, 1903.

---

## THE EXTENT IN STATUTE ACRES AND THE PRODUCE OF THE CROPS.

---

TO THE

SECRETARY OF THE DEPARTMENT OF AGRICULTURE  
AND TECHNICAL INSTRUCTION FOR IRELAND.

SIR,

I have the honour to submit the accompanying Tables relating to the produce of the crops in Ireland in the year 1903. The tables showing the acreage under crops, which I submitted in a necessarily unrevised form in August last, have been carefully revised in the interim, and the figures regarding this subject set out in the present Report are as correct as can be expected in the case of such statistics. I look forward to having all the available details regarding agriculture in Ireland in 1903 fully arranged and submitted early in the coming year in the annual detailed Report on Agricultural Statistics. As I shall have occasion in that Report to go somewhat fully into the comparative significance of these statistics, I do not, in the present statement, go much beyond some general observations on the crop returns of 1903 as compared with those of 1902 and the average of the preceding ten years.

Comparing the extents under the chief cereal crops in 1903 with those for 1902, we find a decrease of 6,648

**Acreage under Crops.** acres, or 15.0 per cent., in wheat; an increase of 15,394 acres, or 1.4 per cent., in oats; a decrease of 9,076 acres, or 5.4 per cent., in barley; and an increase of 412 acres, or 4.3 per cent., under rye. In green crops, potatoes decreased by 8,911 acres, or 1.4 per cent.; turnips decreased by 958 acres, or 0.3 per cent.; and mangel wurzel

decreased by 1,053 acres, or 1·4 per cent. In other crops—flax decreased by 5,057 acres, or 10·2 per cent.; the area for hay from clover, sainfoin, and grasses under rotation increased by 23,791 acres, or 3·9 per cent.; and the area for hay from permanent pasture or grass not broken up in rotation increased by 31,910 acres, or 2·0 per cent. Compared with the average acreage for the 10 years 1893–1902, mangel wurzel and beet root showed an increase of 15,762 acres, or 26·1 per cent., and permanent pasture or grass not broken up in rotation an increase of 55,538 acres, or 3·6 per cent.; but each of the other chief crops exhibits a decrease in the extent devoted to it, the decrease in wheat being 9,582 acres, or 20·3 per cent., in oats, 70,034 acres, or 6·0 per cent., in barley, 9,224 acres, or 5·5 per cent., in rye, 1,973 acres, or 16·4 per cent., in potatoes, 57,674 acres, or 8·5 per cent., in turnips, 15,882 acres, or 5·1 per cent., in flax, 15,680 acres, or 26·0 per cent., and in clover, sainfoin, and grasses under rotation, 4,299 acres, or 0·7 per cent.

TABLE showing the average yearly Extent of Land under the principal Crops in the ten years 1893–1902; the extent in 1902 and 1903 respectively; the Increase or Decrease in the extent under each crop in 1903 compared with 1902; and the extent in 1903 above or below the average for the ten years 1893–1902.

1903 compared with 1855.	{ Increase or Decrease.	De- crease. 1,021,320	In- crease. 900,355	De- crease. 288,179	De- crease. 67,917	De- crease. 52,390	De- crease. 361,908	De- crease. 79,405	In- crease. 52,507	De- crease. 1,008,254
	{ Rate per cent.	48·2	69·2	24·0	20·0	54·0	37·5	21·6	237·1	18·4

Coming to the question of the rates of produce per acre of the crops, we find, on comparison with those of 1902, that the rate for wheat fell from 13·4 to 16·8 cwts.; for oats from 17·3 to 15·3 cwts.; for barley from 21·1 to 16·4 cwts.;

for rye from 14·0 to 13·4 cwts.; for potatoes from 4·3 to 3·8 tons; for flax from 36·2 to 30·9 stones; for turnips from 17·1 to 12·5 tons; for mangel wurzel from 19·0 to 18·5 tons, and for clover, sainfoin, and grasses under rotation from 2·3 to 2·2 tons; the rate for hay from permanent pasture or grass not broken up in rotation remains the same (2·4 tons) in both years; the rate for bere rose from 14·4 to 15·8 cwts.; and for beet root from 13·6 to 14·8 cwts.

Comparing the average rates of produce per acre in 1903 with the mean rates for the 10 years 1893–1902, we find the following increases in 1903:—Bere from 13·5 to 15·8 cwts., rye from 12·0 to 13·4 cwts., flax from 30·5 to 30·9 stones, and hay from permanent pasture or grass not broken up in rotation, from 2·3 to 2·4 tons. There was a decrease for wheat from 17·5 to 16·4 cwts., for oats from 15·5 to 15·3 cwts., for barley from 17·5 to 16·4 cwts., for potatoes from 3·9 to 3·8 tons, for turnips from 15·3 to 12·5 tons, and for mangel wurzel and beet root from 16·7 to 13·5 tons. The rate for hay under clover, sainfoin, and grasses under rotation remains the same (2·2 tons).

The total estimated produce of wheat in 1903 was 629,385 cwts., being 26·6 per cent. under the produce for the preceding year, and 22·6 per cent. under the average for the ten years 1893-1902; the total quantity of oats was 16,804,601 cwts., being 10·3 per cent. less than the produce in 1902, and 7·0 per cent. below the average for the ten years 1893-1902; the quantity of barley was 2,693,953 cwts., being 26·6 per cent. under the produce in 1902, and 337,798 cwts., or 11·5 per cent. under the average for the ten years 1893-1902; bere yielded 1,245 cwts., against 1,283 cwts. in 1902, and an average of 2,451 cwts. for the ten years 1893-1902; and the produce of rye was 134,973 cwts., being 0·2 per cent. under that for the preceding year, and 12·7 per cent. below the average for the ten years 1893-1902.

The total produce of potatoes was 2,363,236 tons, being 13·3 per cent. less than the yield in 1902, and a decrease equivalent to 10·0 per cent. as compared with the average produce for the ten years 1893-1902. The turnip crop was 3,595,745 tons, being 27·3 per cent. below the produce in 1902, and 22·3 per cent. below the average for the ten years 1893-1902; and the total quantity of mangel wurzel and beet root was 1,025,207 tons, being 29·9 per cent. less than in 1902, and 1·9 per cent. over the average for the ten years 1893-1902.

The yield of flax was 8,628 tons, being 23·3 per cent. under the produce in 1902, and 25·0 per cent. under the average quantity for the ten years 1893-1902.

The produce of hay from clover, sainfoin, and grasses under rotation was 1,354,252 tons, showing a decrease equal to 2·6 per cent. as compared with the quantity in 1902, and the quantity of hay from permanent pasture and grass not broken up in rotation was 3,847,911 tons, being 1·6 per cent. over the quantity of such produce in 1902. The aggregate quantity of hay under both headings (5,202,163 tons) is 25,533 tons (or 0·5 per cent.) above that for 1902, and shows an increase equivalent to 5·2 per cent. as compared with the average produce for the ten years 1893-1902.

TABLE showing the Mean Rates of Produce per Statute Acre of the principal Crops for the 10 years 1893-1902; the Average Rates for 1902 and 1903 respectively; and the Increase or Decrease in the Rate for each crop in 1903 compared with that for 1902, and with the Mean Rate for the 10 years 1893-1902.

In 1880 a Special Return to Parliament was made as to the acreage under each variety of potato and their yield, and their liability to disease at that time. Since that period an annual return has been made of the acreage and yield of each variety of potato in Ireland, which has been published as part of the Agricultural Statistics; that for 1903 will be found in Table V., on pages 38-39. As already stated, the acreage under potatoes in Ireland in 1903 was 620,393, as compared with 629,804 in the year 1902, showing a decrease of 8,911 acres.

The acreage under each of the principal varieties of potatoes planted in 1903, with the percentage to the total, is shown in the following statement:—

	Acrea.	Per Cent.		Acrea.	Per Cent.
Champions, ... ..	393,945	63·7	Braces, ... ..	2,375	47
Floanders, ... ..	45,921	7·4	American Roses, ...	2,600	
Beauty of Bute, ...	42,477	6·9	Magnam Bonum, ...	2,236	
Up-to-Date, ... ..	38,630	6·2	British Queens, ...	2,134	
Suttons or Sutton's Abundance,	28,805	4·6	Black Skerries, ...	1,874	
Irish Whites, ... ..	23,766	3·7	Main Crop, ... ..	1,437	
Sherry Blues, ... ..	17,492	2·8	Gawkins, ... ..	1,393	
			Early Roses, ... ..	1,376	
			Ardeana or Ardeairn Beauties,	1,246	
			Elephants or White Elephants,	1,234	
			Roses, ... ..	933	
			All others, ... ..	9,745	

The main feature observable in the foregoing statement is that 63·7 per cent. of the acreage under the potato crop in Ireland consists of Champions, leaving only 36·3 per cent. for all other varieties—the percentage of some of these being so small as to be barely appreciable when put into figures.

The "Champion" potato was first introduced in quantity into Ireland in the year 1880, after the failure of the potato crop in 1879. Since that year it has constituted the main potato crop of the country, as shown by the following statement, from which, however, it will also be observed that from 1891 to 1900 the proportion under Champions showed a gradual decline from 79·7 per cent. to 66·1 per cent., but that in 1901 the proportion showed a fractional increase to 66·4 per cent., to fall again, however, in 1903, to 63·7 per cent., the lowest percentage recorded for that variety of potato seed since 1881, when it was 63·2 per cent.

TABLE showing for the years 1882-1903 the total area under Potatoes, and the extent under "Champions," with the number of acres under that variety in every 100 acres under Potatoes.

YEARS.	Total Area under Potatoes.	Area under Champions.	Proportion per cent. under Champions.	YEARS.	Total Area under Potatoes.	Area under Champions.	Proportion per cent. under Champions.
1882,	Statute Acres. 837,918	Statute Acres. 592,396	70.7	1893,	Statute Acres. 723,735	Statute Acres. 572,685	79.1
1883,	896,467	641,164	71.5	1894,	717,090	562,674	78.5
1884,	798,962	637,715	79.8	1895,	710,486	562,065	77.7
1885,	797,292	635,245	79.7	1896,	706,665	559,673	79.0
1886,	799,847	638,583	79.8	1897,	677,216	491,673	72.6
1887,	796,969	634,334	79.6	1898,	604,864	465,731	77.0
1888,	804,506	628,029	78.1	1899,	602,914	451,183	74.8
1889,	787,234	625,691	79.6	1900,	654,079	432,322	66.1
1890,	790,801	613,760	77.6	1901,	635,321	421,866	66.4
1891,	753,323	600,468	79.7	1902,	629,804	412,200	65.5
1892,	740,025	585,996	79.2	1903,	620,393	396,045	63.7

A reference to Table V., pages 38-39, where the acreage under potatoes is set out for each variety by counties and provinces and for the whole of Ireland, will show that in the counties of Dublin, Wicklow, Antrim, Donegal, Down, Londonderry, and Tyrone, there is less tendency to rely on Champions than in the other counties of Ireland.

A reference to the accompanying diagram will show the very considerable yearly fluctuations in the produce of this staple crop. The average yield per ton per acre of potatoes for the whole of Ireland in each year for the period 1884-1903 is shown in the following tabular statement:—

STATEMENT showing the Average Produce of Potatoes in Tons per Acre for the whole of Ireland in each of the Twenty years, 1884-1903, and also the Mean Produce per Statute Acre for the same period.

## BEE-KEEPING.

*Bee-keeping Statistics for the Season 1902.*

The inquiries made in the preceding sixteen years relative to the extent to which bee-keeping is followed in Ireland, and the degree of success attained in this special branch of rural economy, were repeated this year with reference to the season of 1902, and the results will be found set forth in Table VII. on pages 42-43. In 1890, at the request of the Irish Bee-keepers' Association, the form previously used for collecting information on the subject was varied in some respects, and additional details were obtained.

According to the Returns received, the quantity of honey produced in 1902 was 25·3 per cent. above the average quantity for the preceding ten years. It was, however, 27·0 per cent. below the quantity for the year 1901, the returns for which showed an increase of 15·2 per cent. as compared with the quantity in 1900.

The quantity of honey produced, according to the Returns, was 524,166 lbs.; of this 136,561 lbs. were produced in the province of Leinster; 169,641 lbs. in Munster; 125,878 lbs. in Ulster; and 92,086 lbs. in Connaught. Of the 524,166 lbs., 347,818 lbs. were produced "in Hives having Movable Combs," and 176,348 lbs. "in other Hives." It was stated that 212,614 lbs. was "Run Honey," and 311,552 lbs. "Section Honey."

The number of stocks brought through the Winter of 1902-1903, amounted to 32,770; of which 17,657 were in hives

having movable combs, and 15,113 in other hives. See Table VII. on pages 42-43.

According to the returns collected there were 5,890 lbs. of wax manufactured in 1902; of which 3,749 lbs. were from hives having movable combs, and 2,141 lbs. from other hives.

The Returns received in 1902 gave the quantity of honey produced in 1901 as 718,218 lbs.; the number of stocks brought through the winter of 1901-1902 as 34,793, and the quantity of wax manufactured in 1901 as 5,926 lbs.

The following Table shows the quantity of Honey returned as produced in Ireland during each of the eleven years 1892-1902, with the average annual quantity for the ten years 1892-1901.

TABLE showing for each of the Eleven Years 1892-1902 the Quantity of HONEY Produced in Ireland, distinguishing the Quantity Produced in Hives having Movable Combs from that Produced in other Hives, and RUN HONEY from SECTION HONEY; with the Average Annual Quantity for the Ten Years 1892-1901.

YEARS.	HONEY PRODUCED, IN LBS.						
	In Hives having Movable Combs.			In other Hives.			GENERAL TOTAL.
	Run.	Section.	Total.	Run.	Section.	Total.	
1892, ... ..	34,707	69,629	104,336	66,733	21,388	88,121	192,457
1893, ... ..	40,900	91,413	132,313	81,685	34,365	116,050	248,363
1894, ... ..	42,181	87,644	129,825	70,150	34,863	105,013	234,838

1900, ... ..	90,815	312,392	403,207	169,259	51,093	220,352	623,559
1901, ... ..	103,530	358,683	462,213	194,655	61,500	256,155	718,368
Average, 1892 to 1901, ... ..	64,007	192,510	256,517	119,234	42,109	161,343	417,860
1902, ... ..	37,340	265,478	302,818	130,274	46,074	176,348	479,166

From this Table it will be seen that the quantity produced in 1902 was very much greater than that for any of the years preceding 1898; it is 27.0 per cent. less than the quantity returned for 1901; but shows an increase of 25.3 per cent. as compared with the average for the ten years 1892-1901.

I have the honour to be,

SIR,

Your obedient Servant,

WILLIAM P. COYNE,

*Superintendent of Statistics and  
Intelligence Branch.*

DEPARTMENT OF AGRICULTURE

AND TECHNICAL INSTRUCTION FOR IRELAND,

UPPER MERRION STREET

*Dublin, 16th December, 1903.*
